CANADIAN TURFGRASS RESEARCH FOUNDATION

LA FONDATION CANADIENNE DE RECHERCHE EN GAZON

June 15, 2018

For immediate release:

The Canadian Turfgrass Research Foundation (CTRF) is pleased to announce its website, [www.turfresearchcanada.ca](http://www.turfresearchcanada.ca), has had major content updates over the past several weeks.

“Updating the site was a time consuming but important task to ensure research results are being disseminated to the turf management industry,” stated Executive Secretary Jerry Rousseau, adding, “we’re still working on edits but did not want to delay any longer in sharing both new and previously unposted research reports from CTRF funded projects. Most of the remaining updates are aesthetic.”

Links to over 20 reports have been added to either the ‘Current Research’ or ‘Past Research’ pages depending on project status as follows:

## ***Identification of Drought Resistant Cultivars, PTRC and Guelph, Dodson/Lyons***

- Nov 2013
- Dec 2014
- Feb 2015
- Feb 2016

## ***Selection and Management of Bentrgrass Cultivars, Guelph, Hsiang***

- June 2017 powerpoint

## ***Rolling and Resistance, Michigan State University, Vargas***

- Final report 2018

***The Effect of Snow Cover and Anti-Transpirants on the Persistence of Snow Mould Fungicides, University of Wisconsin, Koch***
