For immediate release:

'Easy to Support Turf Research with Two New Online Contribution Pages'

The Canadian Turf Research Foundation (CTRF) is pleased to announce we've launched two new online contribution pages, making it easier to support turf research than ever before!

The first, called '[A New Approach to the Turf We Play On](#)' is hosted by the Golf Canada Foundation and has actually been up since last fall. It's designed for use by golf enthusiasts interested in helping fund green research initiatives that further environmentally conscious and sustainable golf course design and maintenance practices.

The second, hosted at www.turfresearchcanada.ca under the '**Contribute**' tab, has just been completed and is ready for any and all contributions via Paypal or credit card. Donors can even setup repeating monthly contributions.

Both contribution pages are accessible to anyone and can handle personal or corporate donations with tax receipts issued (Registered Charity# 100773365 RR 0001).

Box 698, Hope, British Columbia V0X 1L0
www.turfresearchcanada.ca

From CTRF Chair, Paul Schofield:

“We believe it’s entirely possible to balance intensive turf care with environmental sustainability but in order to grow better, more sustainable turf, turfgrass research in Canada needs your support!”

Go ahead and pass this note along to your ‘users’, ie. club members, players, coaches, parents, etc., and thanks for helping us fund important turf research projects!

About the CTRF

The Canadian Turfgrass Research Foundation (CTRF) is a registered charity that raises funds for turfgrass research projects aimed at advancing education and scientific knowledge associated with the safe, recreational and functional use of turfgrass.
